Stay or Go Description Poster .png

Hello,

The Temiskaming District Violence Against Women Coordinating Committee (TDVAWCC) is hosting an interactive training for service providers and other professionals titled Stay or Go. This training is an amazing free-of-charge opportunity to learn about Violence Against Women (VAW) and the barriers women face when leaving an abusive relationship, and to network with agencies and professionals in our district.

We would like to invite municipal staff and elected officials to participate in the event. We believe the municipal staff and elected officials can benefit from this event as it relates to community safety and well-being, promoting gender equality, supportive services and resources, community trust and engagement, and much more.

I have included the registration link below, please share it with all who may be interested and would benefit from this opportunity.
