Attachments: RE: None identified pull off School Hill Hwy 11 Temagami

Hello Suzie...I didn't forget about you...

Here is a copy of correspondence from last year in regards to the same issue. The property in question does not belong to the Ministry. That being said, I managed to find some money and am having bear bins made to install at the turnaround plus a few other locations along the highway where truckers dump their garbage. Hopefully this makes it neater and easier for people to keep the areas clean.
