

Corporation of the Municipality of Temagami

2023-M-145

Memorandum to Council

Subject: ICIP Green Program Amendment

Agenda Date: July 13th, 2023

Attachments: Amending Agreement No. 1

RECOMMENDATION

BE IT RESOLVED THAT Council receives this report for information.

INFORMATION

As Council may recall, when we received the results of the tender process for the UV Filtration project in Temagami North, Council directed Staff submit a change in scope application to the ICIP Green Program.

Attached to this report is the amended agreement No. 1 that authorizes the change in scope. This is also attached to By-Law 23-1673 as Schedule A later in the meeting.

In anticipation of Council approving this change in scope, I have reached out to Tulloch Engineering to contact the contractor with the low tender for the UV Filtration project at the Temagami North Lagoon to receive an updated cost and schedule.

I have also reached out to OCWA regarding the standpipe (water tower) in Temagami North and moving the panel update project from the South to the North. Basically the overall cost of the panels in this project and for the next few years outside this project, has not changed but have simply been reallocated to a different location.

Once Council has considered the By-Law later in the meeting, and we have answers regarding updated costs, work will start on the application for financing through Infrastructure Ontario in accordance with Ontario Regulation 403/02.

Respectfully Submitted:

Craig Davidson
Treasurer/Administrator/Acting Clerk
