Mayor and council

Request for a delegation at the next regular council meeting

RE: Repairs/maintenance on the Trappers Cabin and boardwalk

I am asking for the Mayor and Councillor to take into consideration the materials and repair costs to replace some of the boards on the boardwalk and more serious repairs on the Trappers cabin when they are doing their 2024 budget.

I believe there are 4 boards on the boardwalk that have serious rot in the centers and another 7 that should be replaced. The Trappers Cabin itself needs the roof repaired and the floor itself has become spongy. I'm not a builder/contractor so I don't know what kind or amount of materials would be needed to do these repairs.

The Beaver Pond, the Temagami Fire Tower and surrounding trails are major tourist attractions for the Municipality and are also places that are regularly frequented by locals. I would hate to see these structures become unsafe and ultimately beyond repair.

I have attached photos that show some of the damaged boards.

Thank you

Heather Reid
