RE: APPEALING PARKING TICKETS of Raymond Katt

Dear Mr. Dan Arbour,

It was good to become acquainted with you as the Municipal Law Enforcement Officer that covers the Temagami Mine Landing Parking Area.

Regarding above mentioned topic, I noted that I will be appealing for the Parking Ticket to be withdrawn based on the following points of consideration.

In respect to these tickets, we suddenly noticed on my vehicles, I noted to you that a flyer warning that vehicles in no parking areas will be ticketed if not move by a certain time. This perhaps would have been better for relations. However, you noted that a notice did go on Facebook Page - Temagami Talk. I noted to you that I don't hardly subscribe to this Page as perhaps many others may not as well. **May I propose that we consider the tickets you wrote be that flyer to let me know about this Issue.**

As you may have noticed, I'm a member of the Temagami First Nation Band# 2220019801. In 2017 when I moved home to Bear Island, I placed myself on the parking spot list at the Temagami Municipality Office as there were no places open there and the Temagami First

Nations area as well. It is now going on my 7th year and now I believe I'm 6th or 7th on the Municipality list.

Yes... Parking is a problem. And since returning I was hopeful to learn that a plan of Co-Existence was being established for the Temagami Mine Landing Parking area between the Municipality of Temagami and Temagami Frist Nation. To date, it appears apparent that nothing has been done in this regard...perhaps because of COVID-19. Aside from developing this working relationship, I add that maybe this should be before the Land Claim Negotiations under issues of how we establish Co-Existence.

During our brief meeting on October 26th, 2023, I was hopeful that you would set my matter aside as a process to establish more positive relations with the public.

MiiGwetch (thank you) for taking the time in addressing this matter.

Sincerely,

Raymond Kat
