Good morning

Thank you for the positive reply

I'm flying home today from a vacation and would love to chat with you

What we have been doing lately is supporting smaller communities that don't have the necessary funding

With responses to motor vehicle crashes, these departments are able to raise funds via insurance companies to purchase new equipment for the department

Cheers

Carl

Morning Carl

Your timing is spot on

Yes, we have just upgraded our current Hurst hydraulic system to Hurst E-hydraulics, thanks to the generosity of the Temagami Lions, who were able to raise sufficient donations for a Cutter & Spreader last year and committed to continue their fund raising project to purchase an E-hydraulic ram (\$15,441) by August this year. Thanks to Council 's approval, I was approved to purchase the Ram ahead of receiving the funds from the Lions.

I've started the process of declaring the old set surplus to our needs, and have already identified it's surplus to local district Fire Chiefs a week ago (no inquiries received yet)

Initial thoughts included selling on GovDeals, however I've discussed your request with the acting CAO, which we support.

As this is a donation, I need to get Council approval (most likely the April meeting). I might reach out to you in the next couple of weeks for some details that I can include in my report / request to council.

Have a great day

*Jim Sanderson*

Good morning Chief

In past, your department has donated PPE to us at FWB Canada I recently saw that your department has purchased the new EHydraulic jaws As we have several northern First Nations communities requesting assistance in obtaining a set, wish to inquire if you might donate your orders set to Firefighters without Borders Canada to be repurposed to a community without Thank you Carl Eggiman Vice President FWB Canada
