Introduction

The Emergency Plan for the Municipality of Temagami has been developed to reflect the public safety requirements of our community. The effective use and maintenance of this plan is reliant upon all concerned being aware of its provisions and prepared to fulfill their roles and responsibilities in the event of an emergency. Responsible individuals, are expected to participate in emergency training, and exercises which will assist them in the fulfillment of their roles accordingly.

The heads of departments and agencies are expected to develop their own internal notification lists, procedures and contingency plans to fulfill their departmental or agency responsibilities.

Together we work to ensure that our community is prepared to respond to an emergency in the most effective manner possible.

Aim

The Aim of this plan is to protect the health, safety, welfare and property of our citizens, from the effects of a natural, technological or human caused emergency.

Authority

This Plan has been developed and will be implemented in accordance with the Emergency Management Act, detailed in Appendix “D”, which is the Provincial statute under which all emergency management activities are conducted in the Province of Ontario.

4.(1) “The head of council of a municipality may declare that an emergency exists in the municipality or in any part thereof and may take such action and make such orders as he or she considers necessary and are not contrary to law to implement the emergency plan of the municipality and to protect property and the health, safety and welfare of the inhabitants of the emergency area.”

This Emergency Plan and its elements has been issued under the authority of The Municipality of Temagami By-law No. 24-1785. A copy of the By-law is available for inspection at the Municipal Offices.

Definition of an Emergency

Action Prior to Declaration

When an emergency exists but has not yet been declared to exist, community employees may take such action(s) under this emergency response plan as may be required to protect property and the health, safety and welfare of the citizens of the Municipality of Temagami.

Requests for Outside Assistance

Assistance may be requested from the Province of Ontario at any time by contacting Emergency Management Ontario. The request shall NOT be deemed to be a request that the Province assume authority and control of the emergency.

The Emergency Notification Contact List, including contact numbers for requesting assistance, is contained within **Appendix A**.

Any personal information collected under the authority of this Plan shall be used solely for the purpose of planning, preparing and conducting response to emergencies as defined with the Emergency Management Act, and the release of information under this Plan shall be made in conformity with the Municipal Freedom of Information and Protection of Privacy Act.

Plan Maintenance

It is essential that the Plan is kept current and viable by adherence to a maintenance schedule. Responsibility for keeping the plan up to date rests with the Community Emergency Management Coordinator who may delegate tasks accordingly.

The Municipal Emergency Program Committee (MEPC) will conduct an annual review of the plan, including all appendixes, identify resources and capability gaps and recommend approaches to fill gaps, submit proposed amendments to Council for approval and amend existing plans to reflect changes

The notification system Shall be tested annually.

The plan will be exercised once every year as a minimum requirement.

The Emergency Control Group and Support Staff shall receive training and participate in an exercise, once every year as a minimum requirement.

During the notification process, direction as to which location members of the MCEG will report to will be given. For example, members will be told that this is an emergency plan activation and that they should report to the primary Emergency Operations Centre immediately. The primary and secondary locations are geographically separated so that if one or the other is endangered or rendered non-functional as a result of the emergency situation the other should be safe and operational.

A primary and an alternate Emergency Operations Centre have been established for use by the Emergency Control Group in an emergency and with the appropriate technological and telecommunications systems to ensure effective communication in an emergency. **Locations of the Emergency Operations Centers are identified in Appendix L.**

Upon receiving notification, the CAO/Treasurer (Operations Officer) will contact the administrative staff who have been assigned the task of setting up the EOC. The Municipal Emergency Control Group is a team, and the actions taken by one, or the lack of action by one, may have a significant impact upon operations.

The round table discussion should include problems, questions, resources requests and any other relevant information so that timely informed decisions can be made as a group. Once the meeting is completed, the members should contact their agencies' and pass on any relevant information or directives that come out of the Control Group meeting. The frequency of the meetings are determined by the Operations Officer in conjunction with the Mayor, but should reflect the pace of the emergency and occur on a scheduled basis which may be adjusted accordingly.

During the period after the meeting and dissemination of information, members will be in the process of gathering information and preparing for the next scheduled meeting. The Municipal Emergency Control Group members use this time to follow up and ensure that Control Group decisions are being implemented. Each member is responsible for informing their respective agency of the schedule for MCECG meetings. No calls are supposed to interrupt the proceedings. All calls must occur prior to or after the formal meetings of the Municipal Emergency Control Group.

It is essential that the Emergency Operations Centre is comfortable, has good communications and is secure from unnecessary distractions.
