To whom it may concern:

I do hereby give Barry Graham my permission to discuss documents pertaining to Ferguson Point (Strathcona Mining Location B PCL16806) with the planning department.

The majority of these documents that Mr Graham is presenting, and numerous others, should all be in the Municipalities files anyhow as they were all submitted and assumed received by same over the past 8+ years. This includes the package for council that Jennifer Sandham put together in I believe 2011.

Regards,  
Wayne O'Shea
