The Ontario Ministry of Natural Resources and Forestry (MNR), First Resource Management Group and the Temagami Local Citizens' Committee (LCC) invite you to an information centre. This information centre is being held as part of the detailed planning of operations for the ten-year period of the 2019-2029 Forest Management Plan (FMP) for the Temagami Management Unit.

The Planning Process

The FMP takes approximately three years to complete. During this time, five formal opportunities for public consultation and First Nation and Métis community involvement and consultation are provided. The second opportunity (Stage Two) for this FMP occurred November 8, 2017 to December 7, 2017 when the public was invited to review and comment on the long-term management direction. This 'Stage Three' notice is:

- To invite you to review and comment on:
 - the details of access, harvest, renewal and tending operations for the ten-year period of the plan, and
 - the proposed primary and branch road corridors and the proposed operational road boundaries for the ten-year period of the plan, and
- To request contributions to the background information to be used in planning.

The following information may be obtained at the information centre:

- Summary of the MNR Regional Director preliminary endorsed long-term management direction; and
- Summary map(s) of:
 - the planned areas for harvest, renewal and tending operations for the ten-year period of the plan; and
 - the proposed corridors for new primary and branch roads for the ten-year period of the plan.

In addition to the most current versions of the information and maps which were available at Stages One and Two of the public consultation, the following information will be available at the information centre(s):

- First Nation and Métis Background Information Report;
- Preliminary Report on Protection of Identified First Nation and Métis Values;
- Summary of public comments and submissions received to date and any responses to those comments and submissions;
