

## Corporation of the Municipality of Temagami

**Memo No.**  
2019-M-007

### Memorandum to Council

☒ **Staff**  
☐ **Committee**

<b>Subject:</b>	Parking Bylaw Schedule changes
<b>Agenda Date:</b>	<b>December 13, 2018</b>
<b>Attachments:</b>	Proposed changes to schedule L, M, and R Resolution 17-732 for information

#### **RECOMMENDATION**

This memorandum is:

☐ To be received for information

**OR**

☒ To recommend that:

Council direct staff to update schedules "L", "M" and "R" of the Parking By Law to allow overnight parking in certain day use only lots within the Municipality for Ontarians with Disabilities. And further to make changes to allow paid parking in the Municipal parking lot at the corner of Wildflower and Lakeshore Drive for residents and cottagers on the Northeast arm.

#### **INFORMATION**

##### **Parking for the disabled**

There are several residents with disabilities on the north east arm of Lake Temagami that would benefit greatly if we make changes to the wording of the Parking Bylaw to allow overnight parking in the Hatchery parking lot.

In keeping with the *Accessibility for Ontarians with Disabilities Act* I feel it necessary to make changes to allow for overnight parking for residents with disabilities in the disabled parking area of the Hatchery lot. The next closest municipal parking lot with overnight parking is an additional 200m away.

##### **Paid Parking**

Resolution 17-732 asked that The Protections to Persons and Property and Public Works Committees look at this issue and come up with a recommendation.

On November 5, 2018 Barry Turcotte and myself measured the area in questioned and determined that there would be space to create five, ten foot wide parking spaces with little impact on the day use parking.

I would suggest that the newly created paid parking spaces in the wildflower parking lot, be distributed on a first come first served basis, and due to the limited number of spaces I would also suggest that there be only one permit per property. These rental spaces can be for the winter season only or year round.

I would also suggest that the fee be the same as the fee charged for the spaces at the Lake Temagami access point
